Acrylic Cable System FAQ

How long are the cables?

All acrylic cable system sets comes with 4m default cables. All cable kits comes with 2m cables by default.

Can I add more to the system I purchased?

All our cable systems are modular. You can add and remove rows and columns as long as you have enough space on your windows.

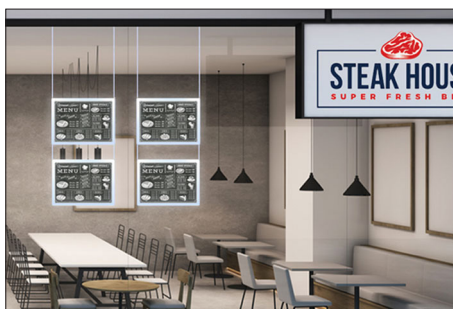

Can I buy parts of the system if they get damaged?

All parts are readily available online under our accessories section.

Acrylic Cable System FAQ

How long are the cables?

All window lightbox system sets comes with 3m default cables.

Can I add more to the system I purchased?

All our cable systems are modular. You can add and remove rows and columns as long as the adapters can support them. Please call us if you are unsure.

What do I do with the access cables underneath?

Once you are satisfied with the height, you can cut any access cables from the system.
