

Snap Frame Installation Guide

Quick installation instructions for changing posters and mounting with screws or tape

1. Change Your Poster

1

Open all profiles

Lift each snap-open edge away from the poster area.

2

Remove the anti-glare cover

Carefully lift out the clear protective sheet.

3

Insert your poster

Place the poster in position, then replace the anti-glare cover.

4

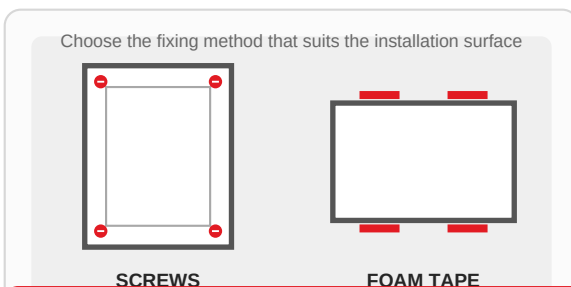

Close all profiles

Snap each side closed firmly to hold the poster in place.

ORIENTATION

The frame can be mounted in portrait or landscape orientation.

2. Mounting - Screws or Tape

1

Choose orientation

Mount the frame in portrait or landscape orientation.

2

Use supplied screws

Mount to the wall using the supplied screws.

3

Use suitable wall fixings

Or use screws and wall fixings appropriate for the wall type.

4

Or use foam mounting tape

Alternatively, use high-quality foam double-sided mounting tape, depending on the installation surface.

MOUNTING NOTE

Use the fixing method appropriate for the wall type and installation surface.
