Notes to Designers

- This template file has been reduced to 50% of actual size to help reduce file size. Please ensure to use **300** dpi.
 - Color mode should be **CMYK** to ensure best color matching. Please **DONOT** use RGB color mode.
 - It is best to convert all text to **outline** and flatten all images to ensure that nothing is missed out or changed during the transfer of files.
 - Using guidelines to remain within the margins will prevent mistakes and save your artwork elements from getting cut off.
 - The "**Bleed Zones**" are hidden inside the hardware. However, it is **STRONGLY** recommended that you extend your background graphics to the edges to the art board to ensure proper bleed with no visible unprinted areas.
 - This file is itself a template and can be edited to design your graphics.

Please make sure to delete this layer before submitting your artwork or it will be printed in your finished product. **Keep top layer on top of your artwork.**
